MEMORANDUM FOR THE DEPUTY DIRECTOR OF CENTRAL INTELLIGENCE

SUBJECT: Publication of a Defense Intelligence Agency Paper on the Impact of the Soviet Food Program on Defense Activities

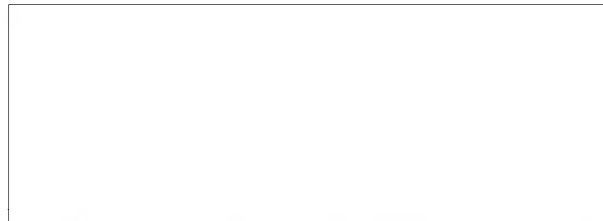

Reference: DDCI Memorandum, 11 October 1983, subject: Impact of the Soviet Food Program on Defense Activities

1. Your comments on the Defense Intelligence Agency (DIA) response to the Directorate of Intelligence Memorandum, The Impact of the Soviet Food Program on Defense Activities, are greatly appreciated. Lieutenant General James A. Williams, Director of DIA, took the opportunity on 1 November 1983 to pass on your remarks to his principals regarding the broadened dialogue between the agencies on a number of important issues.

2. We welcome the opportunity to have the DIA response published in the "Viewpoint" section of the USSR Monthly Review. Any assistance DIA can provide will be made available. We would appreciate the opportunity to review the final product before going to printing.

3. We recognize that these issues are of continuing vital importance, and concur with the need to encourage community-wide discussion and analysis. The cooperative atmosphere on issues of mutual interest is appreciated at DIA as well, and we look forward to continued interaction.

FOR THE DIRECTOR:

Deputy Director for Foreign
Intelligence
